January 2023

City of Tampa Development Services Center

Upcoming City Council Public Hearings that you may wish to attend and offer your comments:

NOTICE: City Council public hearings will be conducted in a hybrid format. The public can continue to participate virtually while City Council members will participate in person at Old City Hall. Stay tuned for further details. For more information please visit our website at https://www.tampagov.net/quasi.

DEPARTMENT ANNOUNCEMENTS!

Happy New Year, neighborhood leaders. The Development Coordination office hopes that 2023 will be the best year yet for the City of Tampa. Don't forget, we have the first Zoning Training scheduled for 6 PM on January 11, 2023. The training session will be in person and located at our office located at 1400 North Boulevard.

The city just launched "Moov-It," a new app helping you plan trips around town, no matter the mode of transportation. This would include walking, biking, or riding the bus, to name a few. "Moov-It" is like Google Map or Waze, but actually includes tickets for public transportation.

Vik Bhide, with the city of Tampa's Mobility Department, said the app combines all of the different apps into one single platform.

Right now the city is looking for 200 people to join a pilot program with the app. They will use the app and help the city improve it to make sure it serves everyone. To join the pilot program, email MaaS@tampagov.net

On February 23, 2023, Council will consider language to allow for non-residential development to have access onto a local street, codify the process for the Design District Review and require public notice for some design exception 1 requests.

On January 2, Tampa will host the ReliaQuest Bowl between No. 22 Mississippi State vs. Illinois with kickoff at noon.

And no January would be complete without Gasparilla. On January 21 the Children's Parade will take place and the following weekend will be the Pirate Invasion.

Please note the following email addresses when reaching out to the City:

TampaZoning@tampagov.net	VRB@tampagov.net
COT-Address@tampagov.net	CSDHelp@tampagov.net
Treequestions@tampagov.net	CSDInspections@tampagov.net
CSDPlanReview@tampagov.net	CSDCompliance@tampagov.net

City Council still has a virtual component for their hearings, but the VRB, ARC, BLC and Code Enforcement are meeting in person.

CITY OF TAMPA LAUNCHES MOBILITY AS A SERVICE (MaaS) App

The City of Tampa is seeking 200 users to provide feedback on our new Mobility as a Service (MaaS) pilot program with Moovit. Moovit is an urban mobility app that helps users plan multimodal trips, whether they prefer to walk, bike, scoot, drive, ride the streetcar or take the bus. The Moovit app is available for everyone to download. Sign up to provide feedback on the MaaS pilot program.

Moovit delivers a smart mobility experience – multimodal trip planning with eBikes, scooters, and transit, and mobile ticketing for HART – all from one app.

Launching in Tampa today, Moovit is an urban mobility app that helps users plan multimodal trips, whether they prefer to walk, bike, scoot, drive, ride the streetcar or take the bus. The Moovit app is available to everyone today, even without signing up to participate in the pilot.

Unlike using Google Maps or Waze to just plan trips, Moovit also offers mobile ticketing for public transit, real-time arrival information, and displays parking lots and park and ride locations, in addition to providing accurate and reliable urban mobility information.

About Moovit

Moovit (www.moovit.com), part of Mobileye (Nasdaq: MBLY), is a leading Mobility as a Service (MaaS) solutions provider and the creator of the #1 urban mobility app. Together, Moovit and Mobileye are accelerating the global adoption of autonomous transportation, bringing MoovitAV robotaxi services to cities worldwide.

Moovit amasses up to six billion anonymous data points a day to add to the world's largest repository of transit and urban mobility data. For governments, cities, transit agencies, and private companies, Moovit offers AI-powered MaaS solutions covering planning, operations, and optimization with proven value in reducing congestion, growing ridership, and increasing efficiency and asset utilization.

How Does Moovit Work?

Moovit users can enter their destination and the app will display Suggested Routes on how to arrive. Moovit's trip planner uses a combination of eBikes, scooters, HART, TECO Line Streetcar System, ridesharing systems like Uber and Lyft, and personal vehicles and bicycles to suggest the most convenient routes.

Moovit's iOS, Android, and Web app combine official information from service providers, as well as crowdsourced information from users, to calculate the best route for each journey with urban mobility options such as a streetcar, bus, e-bikes, scooters, Uber, Lyft, and personal vehicles. Moovit also provides useful features for drivers, including the ability to drive, park, and ride transit.

People can sign up to be a part of this pilot project by emailing maas@tampagov.net
