ADDENDUM 1

Via E-Mail

DATE: June 24, 2022

Contract: 22-C-00030; Water Utility Relocation

Bidders on the above referenced project are hereby notified that the following addendum is made to the Contract Documents. BIDS TO BE SUBMITTED SHALL CONFORM TO THIS NOTICE.

Item 1: Replace in S-4.01, on page SP-3, Emergency Work Orders with the following:

Emergency Work Orders issued through the Contract will be in response to water main breaks, emergency valve replacements, or other water facilities emergency work required of the Department by others, as directed by the Engineer.

Compensation for Emergency Work shall be provided based on Contractor time (and labor), equipment, and materials expended to accomplish the emergency construction required, as verified by the Engineer. Payment for labor shall be based on actual hours expended for emergency construction, as reported in monthly certified payroll reports (including Contractor burden) provided to the City by the Contractor and will include a 15% OH&P mark-up. Compensation for equipment utilized for emergency construction shall be via applicable FHWA Rates taken from the current Rental Rate Blue Book for Construction and will include a 15% OH&P mark-up if not included in the Blue Book rate. Materials used for emergency construction will be compensated via invoices provided by the Contractor and will include a 15% OH&P mark-up.

Because Emergency Work Orders will generally require immediate response from the Contractor, initial notification for such work will be via telephone contact from an authorized Department representative. Following telephone notification, and as soon as is practicable, a confirming e-mail will be sent from the Department to the Contractor documenting the directed Emergency Work.

In the event of an emergency or urgent work, as identified by the Engineer or his designee, the Contractor will be required to respond to the request of the Engineer or his designated representative and mobilize as required or agreed.

All other provisions of the Contract Documents and Specifications not in conflict with this Addendum shall remain in full force and effect. Questions are to be e-mailed to ContractAdministration@tampagov.net.
