1. PREFACE

Governor DeSantis Executive Orders 20-112 and 20-139

On April 29, Governor Ron DeSantis announced a plan for Florida's reopening post COVID-19. Executive Order 20-112, as amended, also referred to as "Phase 1," took effect at 12:01 a.m. Monday, May 4, 2020. On June 3, 2020, the Governor issued Executive Order 20-139, which moved all Counties in the state, except Miami-Dade, Broward and Palm Beach, into Phase 2 of the Governor's Plan for Florida's Recovery, effective at 12:01 a.m. on Friday June 5, 2020. The Phase 2 Executive Order and associated guidance provide the following:

- ▶ Restaurants and food establishments* licensed under Chapters 500 and 509, Florida Statutes, may allow on-premises consumption of food and beverage, so long as they adopt appropriate social distancing measures and limit their **indoor occupancy to no more than 50 percent of their building occupancy, excluding employees.**

**This may include establishments that derive more than 50 percent of gross revenue from the sale of alcohol beverages but are ALSO a food establishment licensed under FS Ch. 500 or 509.*

- ▶ Appropriate social distancing requires maintaining a **minimum of 6 feet between parties**, except to the extent that appropriate partitioning is in place
- ▶ Parties should not exceed 10 people. Businesses should limit inside waiting areas for patrons waiting to be seated.
- ▶ Businesses should thoroughly clean and disinfect all surfaces after each use.
- ▶ Businesses should consider a reservations-only business model or call-ahead seating to manage spacing in restaurant.
- ▶ **Outdoor dining areas should be prioritized** with six-foot spacing between tables.
- ▶ Interior Bar areas may be open, but only with seated service. No outdoor Bars.
- ▶ On-site sale and retail businesses will be allowed to operate at full capacity and should abide by the safety guidelines issued by the CDC and OSHA.
- ▶ **Facial coverings** should be worn for all those in face-to-face interaction roles (e.g., servers, retail workers) and where six foot social distancing cannot be maintained.

City of Tampa Restaurant + Retail Recovery Program

In concert with the Governor's Executive Order, the City of Tampa has created the following guidelines to temporarily allow restaurants and retail businesses to expand their business footprint onto the public rights-of-way or in privately owned parking facilities without meeting certain City code and permit requirements.

"We want to lift up our local businesses through this recovery and empower them to re-open responsibly, by giving our local business owners as many tools and as much space as possible to safely serve guests, we can work together to protect our workforce, our customers, and our community. Our small businesses are the backbone of our economy, and we need their help to safely and successfully re-open our city and get back to all the things we love--one step at a time."

Jane Castor, City of Tampa Mayor

"The safety of the public is our top priority as the City moves forward to reopen. Law enforcement has properly planned strategies and logistical needs to aide and educate consumers and business owners with guideline restrictions. Our efforts will ensure all comply with social distancing standards and sanctions."

Brian Dugan, City of Tampa Police Chief

"Tampa Fire Rescue, including the Fire Marshal's Office and the Emergency Management Division, stand ready to implement this measured approach to balance the health and safety of our community with the economic revival we need. Our mission is service to the public and our commitment has not wavered."

Nick LoCicero, City of Tampa Fire Chief

Restaurant + Retail Recovery Program Overview

The City of Tampa's Restaurant + Retail Recovery Program has been established to ensure businesses have the greatest ability to operate successfully during the COVID-19 economic recovery. Phase 1 of the program entails leveraging available private and public space to be used as expanded areas for restaurant and retail activity while maintaining public safety requirements.

Economic Recovery Call Center

The City of Tampa has established a Call Center to communicate with local businesses during economic recovery from the COVID-19 pandemic.

Temporary Outdoor Dining + Retail Activity on Private Property (Sidewalks + Parklets)

Restaurants and retail establishments with access to private sidewalks or private parking may utilize these areas for dining or retail services, in accordance with the safety guidelines outlined in Section 2 of this guidebook, provided the consent of the landlord or property-owner is obtained.

Temporary Outdoor Dining + Retail Activity in Public Rights-of-Way

The City of Tampa is temporarily suspending City Code and permit application and approval requirements for restaurants and retail businesses to expand operating space in designated portions of the public rights-of-way. These areas are limited to all sidewalk areas and adjacent on-street parking spaces (if available) on City and County roadways. State roads are excluded from this program as the City does not regulate State rights-of-way.

To participate in the program, minimum life safety requirements and Americans with Disability Acts (ADA) must still be met as described in Section 2 of this guidebook. It shall be the responsibility of the business to ensure that these requirements are maintained at all times the business is operating within the public right-of-way. To request use of metered public parking spaces adjacent to your business, please contact the City of Tampa at 1-833-TPA-INFO (1-833-872-4636).

"Café & Retail Zones" are specific areas that the City of Tampa has proactively identified that will have full or partial road closure, and a map of these locations is on the City's Lift Up Local webpage: <https://www.tampagov.net/emergency-management/LiftUpLocal>.

Types of public spaces used for this purpose:

Sidewalks

Private use of sidewalk space has typically required Sidewalk Café Permits (per Chapter 22, Subdivision IX, of the City of Tampa Code of Ordinances). The City of Tampa is temporarily suspending City Code and the requirement to apply for a permit and now allowing businesses to temporarily use sidewalks for additional restaurant seating or retail purposes. Requirements are described further in Section 2 of this guidebook.

Parklets

Parklets are on-street parking spaces that have been temporarily converted for other uses, such as expanded outdoor dining areas.

Café & Retail Zones

This involves closure of portions of a street near a concentration of businesses to provide additional space in a safe and protected setting that can serve multiple businesses.

2. RESTAURANT + RETAIL RECOVERY PROGRAM

The City of Tampa is taking steps to ensure businesses have the ability to operate safely and successfully during the COVID-19 economic recovery using available private and public right-of-way.

Temporary Outdoor Dining + Retail Activity on Private Property

In accordance with City of Tampa Executive Order 2020-26, businesses may expand dining and retail areas to certain areas of private property not typically permitted for business activity, such as private outdoor areas and parking lots.

Private Parking Lots

Up to 50% of off-site private parking spaces counted for required parking may be converted to outdoor dining or retail space, when the lot is immediately adjacent to the parent property. The converted use must be in conformance with all Tampa Fire Rescue requirements for building accessibility, and social distancing requirements that provide at least six feet spacing between tables and pathways. Additionally, no parking for disabled persons may be repurposed for restaurant or retail use.

The required landscape and buffer areas for the off-site private parking spaces (Vehicular Use Areas), shall not be used as an expanded converted use for restaurants or retail operations. There shall not be parking, outside seating, or retail activities in these areas.

Use of Parking Spaces on Private Property

Up to 50% of required on-site parking spaces may be converted to outdoor dining areas or retail space to expand the footprint of the business operation. The converted use must be in conformance with all Tampa Fire Rescue requirements for building accessibility and social distancing requirements which provide at least six feet spacing between tables and pathways. Additionally, no parking for disabled persons may be repurposed for restaurant or retail use.

retail operations. There shall not be parking, outside seating, or retail activities in these areas.

Tents or shade structures that are larger than 10 feet by 10 feet in size must comply with I.F.I.A. tent handbook requirements.

Setbacks on Private Property

Any permanent structures being proposed to expand the seating area for outdoor seating must meet required yard setbacks. Temporary placement of equipment such as wash stations and hand sanitizing stations or stations for staff set up and service do not need to meet required yard setbacks.

Temporary Outdoor Dining + Retail Activity in Public Rights-of-Way (Sidewalks + Parklets)

In accordance with City of Tampa Executive Order 2020-26, the City of Tampa is temporarily authorizing restaurants and retail businesses to expand dining and retail operations onto all sidewalks and on-street parking spaces (parklets) on City and County Roads within the City, provided the applicable requirements described below can be met. 3. FREQUENTLY ASKED QUESTIONS

Do I need a permit or approval to add restaurant tables to the sidewalk in front of my business?

No, the requirement to obtain a Sidewalk Café Permit has been temporarily suspended for the duration of City of Tampa Executive Order 2020-26.

Do I need to get approval to take over a public parking space in front of my business?

On-street parking spaces with parking meters must be approved by the City of Tampa. Businesses may call 1-833-TPA-INFO (1-833-872-4636) to request one or more parking meters be bagged/covered so the parking space may be used by the business for the duration of the pilot.

On-street spaces without parking meters do not require any notification of the City. Un-metered spaces are available for business use consistent with the requirements in this guidebook for the duration of the pilot.

How do I request closure of the street adjacent to my business?

The City has designated three (3) Café & Retail Zones where the City will close selected portions of an entire street and require detours for vehicles. These zones will provide the maximum additional space, serve many businesses in a concentrated area, and will be installed 24 hours per day/7 days per week, for the duration of this pilot program

All locations are on city-owned streets. To request consideration of a Café & Retail Zone in front of your business, please call 1-833-TPA-INFO (1-833-872-4636).

What are the hours of operation allowed on sidewalks, parklets, and in Café & Retail Zones?

The permitted business hours of operation for indoor portions of your business should remain consistent with your businesses typical hours of operations. If you are expanding operations outdoors, outdoor seating hours end at 10 pm Sunday through Wednesday and 11 pm Thursday through Saturday. Please be mindful of your neighbors and any additional noise that may be generated.

What if I don't know my businesses' capacity or occupancy load, how do I calculate the allowable 50%? Does the 50% rule apply to both inside and outdoors?

The "50% rule" only applies to indoor capacity requirements, but excluding employees. Outdoor requirements are based on table spacing of 6 feet (measured from the backs of chairs) and provisions for safe pedestrian pathways. If you don't know the allowable capacity of your business to calculate the 50%, please call the Fire Marshal at (813) 274-7000.

How does the "6-foot rule" work for restaurant seating?

If people are at a table together, they don't need to be 6 feet apart. Each table setting needs to be 6' from other tables measured from the back of each chair, chair-to-chair, unless appropriate partitioning is in place.
