

Have you considered LASIK?

Laser vision correction (LASIK) is a procedure that can reduce or eliminate your dependency on glasses or contact lenses. This corrective service is available to you and your eligible dependents at a special discount with your Superior Vision plan.

Is LASIK right for you?

Are you nearsighted, farsighted, or have astigmatism? If so, LASIK may help you regain your vision.

How does LASIK work?

The FDA-approved procedure reshapes the cornea so light entering your eye is properly focused onto the retina. Vision is usually corrected immediately following the LASIK procedure.

Through QualSight, members can receive 20% to 50% off the national average price of traditional LASIK.

Additionally, there are:

- No authorizations required by Superior Vision.
- No copayments needed.
- Superior Vision members are informed of the exact contracted prices during their initial phone consultation.

Quality

Our credentialed surgeons have collectively performed more than 7.5 million procedures.

Savings

Significant savings including 20–50% off the national average price of traditional LASIK.
