

Annual Box Culvert Rehabilitation

FY2018, Citywide

Estimated cost: \$650K

Project Description:

Create an annual contract to address the repairs in a timely fashion as they become evident.

Justification:

The City has numerous box culverts that are over 75 years old. These structures need remedial work to repair spalled concrete and joint leaks.

Related Issues:

Repair major culverts within roadways prior to resurfacing or rebuilding the roads.
