

Eastridge Pump Station Rehabilitation

Flooding Relief FY2018, District 7

Estimated cost: \$700 K

- **JUSTIFICATION:**

The Eastridge Pump Station was constructed in 1983 with a single hydraulically driven pump. Repairs and maintenance has increased in the past five years.

- **PROJECT DESCRIPTION:**

The project consists of removal of the hydraulically driven pump and installation of two electric submersible pumps and motor controls to provide redundancy.
