

# Howard: Swann to Morrison– Flooding Relief PH II

FY2017, District 4

Estimated cost: \$825K

- **JUSTIFICATION:**

Ponding occurs in the travel lanes due to poor grading associated with pavement overlay. The project is needed to convey runoff and relieve the ponding.

- **PROJECT DESCRIPTION:**

Roadway re-grading from Morrison to Swann and potential construction of a surface water management system in coordination with roadway surfacing.

- **RELATED ISSUES:**

Design and construction will be accomplished in coordination with the Transportation paving project.
