

Expect More, Experience Better,

## **Public Workshop Summary**

October 23, 2017 at the Bryan Glazer Family JCC

Approximately **100 people were in attendance**, including residents, business owners, employees/employers, and government representatives from the West Tampa CRA area.

The workshop began with a summary of **initial findings** from Kimley-Horn and Urbanomincs.

At each table, workshop attendees participated in a **Table Exercise** and took part in **facilitated discussions on the priorities** they have for the West Tampa CRA area and noted them on an aerial map.

Attendees then took part in a **Survey Exercise** where they were asked to **respond to a series of questions/comments**, in order to further **determine the priorities** of the residents, business owners, employees/employers, and government representatives from the West Tampa CRA area.

The results and summary of the Table and Survey Exercise are provided in this presentation.

## **Table Exercise Summary**

Attendees were asked to discuss and identify issues and opportunities throughout the West Tampa CRA and record those items on Post-It notes to be placed on District maps

The priorities determined from the **Table Exercise** were organized and tallied based on the **key words** from the responses of attendees

The key words were used to create "word clouds" that highlighted Economic Development/
Community and Infrastructure priorities

### **OVERALL SUMMARY:**
