

Cancer  Guardian

Cancer is too big to risk going it alone...

*50% of those born today
will have a chance of
developing cancer in
their lifetime.¹*

Cancer is a complex genetic disease. Cancer Guardian™ is a transformative benefit program that can help in the prevention and management of cancer by combining the power of DNA testing with the personalized support of expert cancer care resources. Protect yourself and your family with the unmatched technology and services that Cancer Guardian provides to support longer, healthier lives.

Cancer Support Specialists

Being a member of Cancer Guardian means that you are always supported by real people, in real time.

*40% of the most frequently
shared medical links
on social media are
classified as inaccurate.²*

- **Cancer Information Line** – Speak with an oncology specialist for cancer related questions, concerns, risk-mitigation strategies, or caregiving guidance
- **Dedicated Cancer Support Specialist** – If diagnosed with cancer, a dedicated Cancer Support Specialist (CSS) is assigned to provide practical, emotional, and clinical support
- **Expert Pathology Review** – Ensure correct diagnosis with an expert second opinion review
- **On-Site Nurse Advocate** (1x visit) – If diagnosed, an oncology nurse advocate can accompany you to a medical appointment to provide support and guidance

Advanced DNA Testing

Leverage DNA testing innovations to both prevent and combat cancer

- **Hereditary Risk Screening** – Understand your genetic risk for hereditary cancers, cardiovascular diseases, and more for preventative planning. Test analyzes 147 genes for:

Cancer	Heart	Additional Conditions
<ul style="list-style-type: none">• Breast• Ovarian• Prostate• Colorectal• Melanoma• Kidney• Stomach• Pancreatic• Uterine• Thyroid	<ul style="list-style-type: none">• Aortopathies• Arrhythmias• Cardiomyopathies• Genetic forms of high blood pressure and high cholesterol• Thrombophilia	<ul style="list-style-type: none">• Alpha-1 antitrypsin deficiency• Malignant Hyperthermia susceptibility• Hereditary hemochromatosis• OTC deficiency• Wilson disease

69% of BRCA1 or BRCA2 carriers have NO personal family history of breast or ovarian cancer.³

- **Comprehensive Genomic Profiling (CGP)** – If diagnosed, CGP interrogates more than 300 cancer-related genes in the tumor, helping inform treatment decisions and clinical trial eligibility

Navigation Technology

Advanced technology platforms to help navigate the confusing and often financially devastating cancer journey.

- **Medical Records Platform** – Consolidate, securely store, and share medical records, images and notes, for any health condition
- **Clinical Trial Explorer** – Personalized clinical trial search, reporting and enrollment platform
- **Financial Navigation** – Platform that projects out-of-pocket financial exposure and identifies public and private financial aid programs

Cancer patients are 3.5x more likely to file bankruptcy within 5 years of diagnosis.⁴

We take Cancer Personally.

It's not just DNA testing that makes personalized medicine personal. It's also each step through the cancer journey, from expert pathology review, therapy selection, cancer care support, financial navigation, and clinical trial search. Cancer Guardian is your dedicated advocate every step of the way.

Cancer Guardian provides services that are not typically made available or covered by health insurance.

“

Everyone I have dealt with at Cancer Guardian has provided empathy and much needed support during my journey after having been diagnosed with my illness.

Their care and concern shines through in all that they have provided...allowing me to talk through my emotion, providing resources so I learn more about my rare illness, calling weekly to see how I am doing and if I am staying on track with my goals... and being by my side physically, when visiting my doctor.

I am extremely grateful and comforted to have them on my team...”

Arlene Shutt
Cancer Guardian Member
