

Doyle Carlton St & Laurel St Intersection Improvements

TA Grant Project | City Project No: 1001179

Project Location

Project Description

Doyle Carlton Dr serves as an important north-south thoroughfare for destinations adjacent to the developing neighborhood and Arts & Riverwalk sections of Downtown. The Laurel St intersection at Doyle Carlton Dr has an auto-centric suburban style infrastructure and traffic control. The current infrastructure is outdated and in conflict with the complete St objectives for the redeveloping neighborhood. This project will improve pedestrian and multi-modal connectivity in this area. The proposed roundabout is the best option to accommodate other modes of travel, more safely and aesthetics.

Additional Project Information

Project Costs and Schedule

Phase	Firm	Cost	Funding Source	Schedule Start	Schedule Finish
Conceptual Design	Gresham Smith	\$35,000	Complete Sts	August 2018	June 2019
Design	TBD	TBD	TBD	TBD	TBD
Construction	TBD	\$720,000	Tbd	2024	2025
