Residential and commercial developments are all of the CRA areas which include: East Tampa, Ybor, District, Central Park, Downtown, West Tampa, Tampa Heights, and Drew Park. We also invested in renovations and improvements to our neighborhood parks, like Herman Massey, Jose Marti, Williams Park, Vila Brothers, Freedom Park, Forest Hills and Greco Sports Complex to name a few. We continue to strive to make significant infrastructure and quality of life improvements in all of the CRA neighborhoods.

We are excited for continued CRA growth, investing our resources in ways to transform the quality of life for all that live, work, and play in the City of Tampa.

Tampa Community Redevelopment Agency

Overview

Urban Development: Making All Areas Of Our City Vibrant

Our goal is to improve areas within the City of Tampa that have not traditionally benefitted from significant private sector investment and where deteriorating property conditions have resulted in a relatively lower tax base. Through the investment of tax increment financing (TIF) dollars and sustained economic redevelopment, our goal is to make all of our redevelopment areas economically vibrant, safe and attractive.

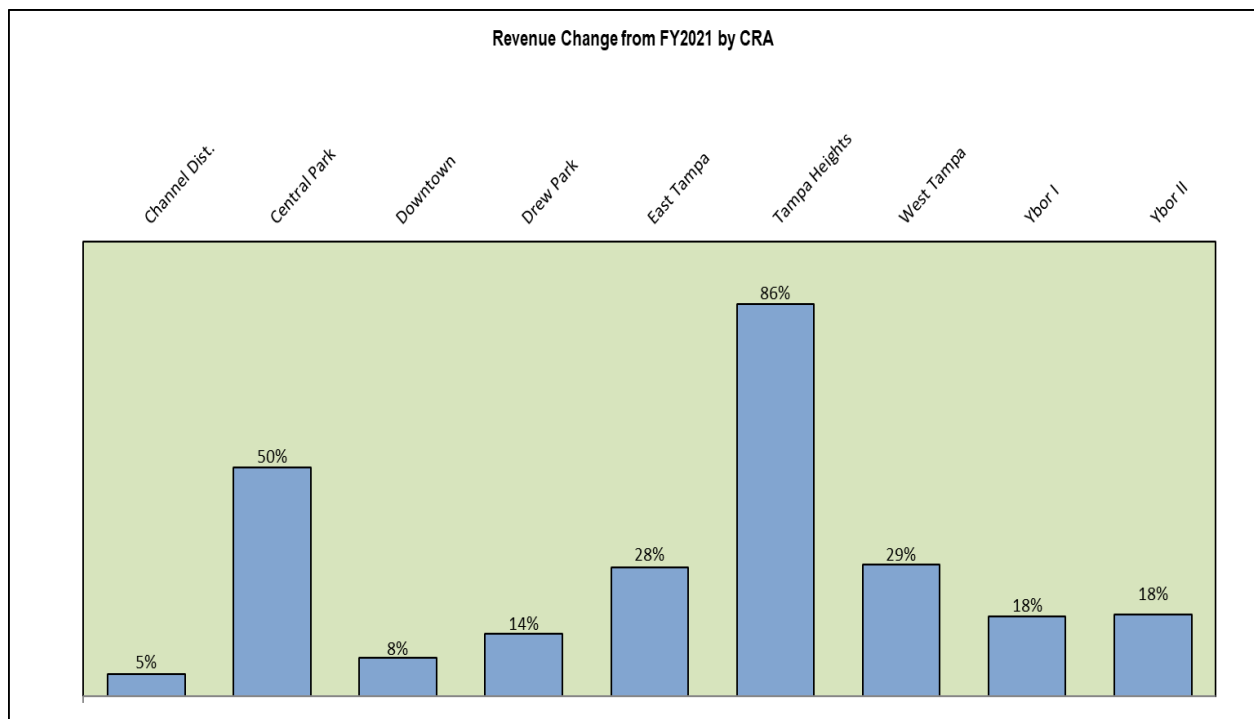

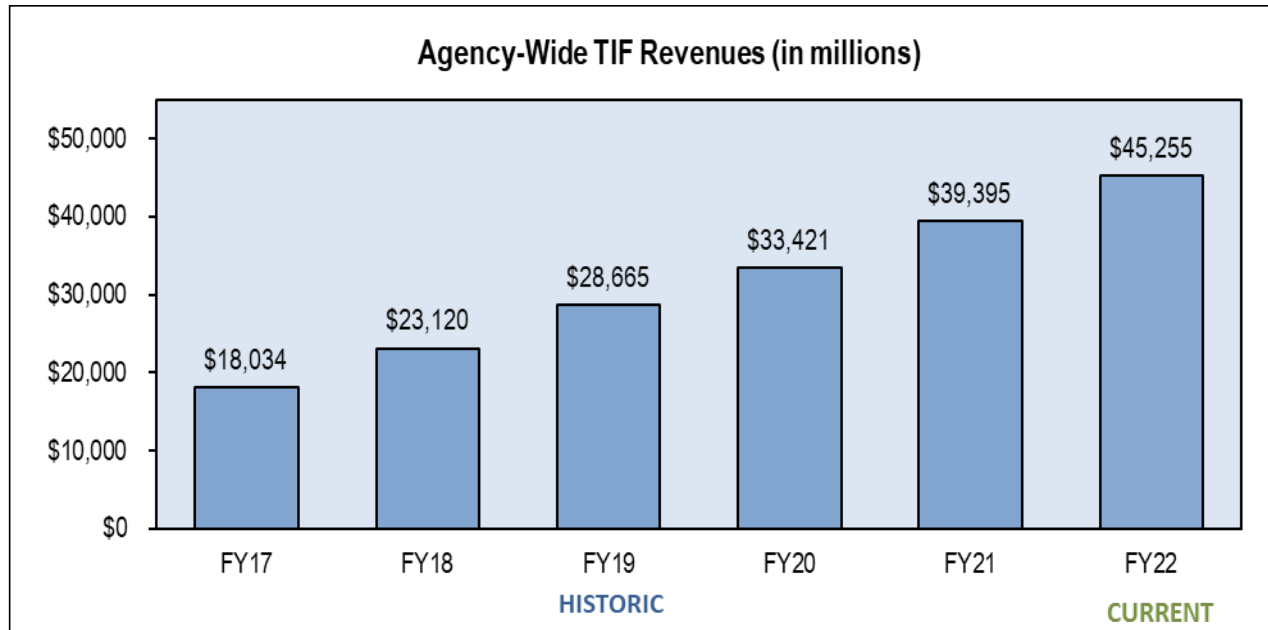

The actions we take are largely in three areas – investing TIF resources, creating effective incentive programs, and shaping the regulatory environment. By wisely using these key redevelopment tools, we provide a solid foundation for attracting private investment.

Our work is guided by certain key principles:

- ◆ **Community Collaboration** - We proactively engage the talents and energies of our citizens and key stakeholders in revitalizing our communities.
- ◆ **Financial Stewardship** - As stewards of public resources, we provide transparent financial planning and reporting, and ensure that the CRA is a prudent investor in public/private partnerships.
- ◆ **Inspiration** - We bring the best talent possible to our urban planning and design review efforts with the goal of inspiring our communities to create attractive, “livable” places.
- ◆ **Market Perspective** - Our efforts are successful because we allow the private sector to profitably respond to market demands with reasonable risk.
- ◆ **Outcome Accountability** - We measure our success based on achieving results such as improved community aesthetics, improved quality of life, and increasing tax revenues.

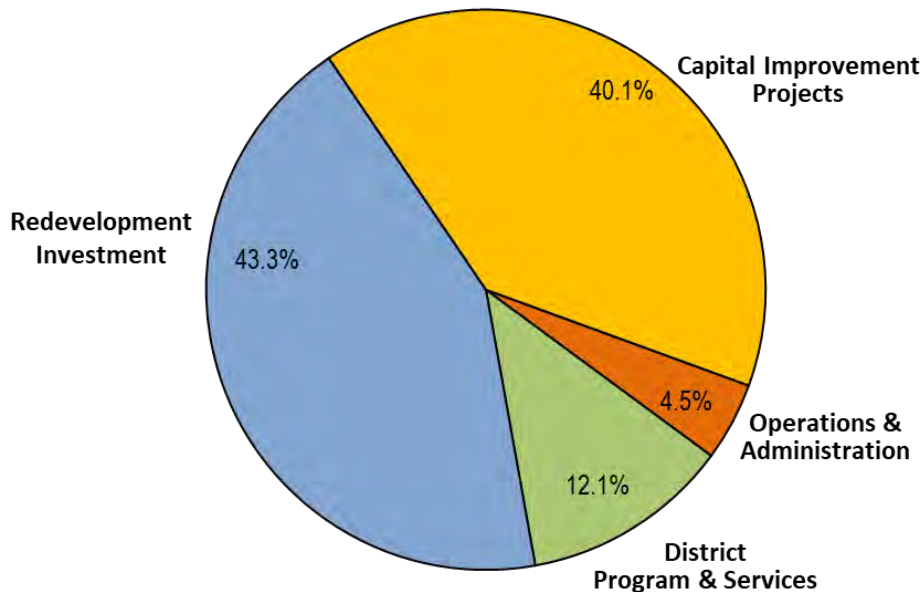

Tampa Community Redevelopment Agency Agency-Wide TIF Revenue Receipts

Tampa Community Redevelopment Agency **TIF Budget and Expense Categories**

95.5% percent of the Agency's TIF revenues are invested into district improvements and 4.5% is spent on administration. Administrative costs as a percentage of total TIF investment increased approximately .7% from fiscal 2021 due to increase in percent of salaries funded by the CRA and an increase in staffing.

Operational and Administrative costs consist of Economic and Urban Development Department personnel, office operating costs and other expenses needed to administer the various Community Redevelopment Plans.

District Programs and Services include enhanced or new city services within a particular district that benefit or serve that district alone. Some examples include marketing of community events, security personnel and community clean-up costs.

Redevelopment Investment typically includes items such as land acquisition, building rehabilitation loans and/or grants and debt service payments for redevelopment financing.

Capital Improvement Projects include infrastructure improvements such as street resurfacing, sewer and stormwater improvements, signage, parks and other recreational facilities.

Tampa Community Redevelopment Agency **Services Agreement Overview**

As part of the annual budget process, the Tampa Community Redevelopment Agency Board (CRA) contracts with the City of Tampa to assist it in implementing and furthering redevelopment plans for each redevelopment community by providing (or causing to be provided) certain redevelopment services and public improvements.

All community redevelopment areas are covered by a single agreement in this budget document. This year's agreement is in the same form as the FY21 Revised Agreement. Executing the agreement allows the City to use its existing processes (e.g. payroll system), procedures (e.g. purchasing by competitive bid and W/MBE program compliance) and staff to accomplish the plans of the CRA.

Based on terms of the Board's adopted Financial and Administration Policy (see Appendix), adopted April 6, 2005, the CRA agreed to particular terms regarding how and in what amounts the City would be reimbursed for the services that it provides in implementing the Community Redevelopment Area Plans.

Importantly, significant expenses incurred by the City to administer CRA activities are not presently reimbursed by the CRA, such as costs associated with the City Clerk, Legal Department, Revenue and Finance, Planning and Development, Purchasing, WMBE, Personnel, Technology and Innovation, Housing and Community Development, and other departments.

The annual services agreement documents the amounts to be paid to the City from TIF funds each year. As in past years, the City will be reimbursed for staffing and operating costs associated with the Community Redevelopment Department. Direct service expenses for additional services being provided by other departments are listed separately (e.g. Environmental Detectives in East Tampa).

The schedule on the following page details the services and costs for each area.

City of Tampa
Community Redevelopment Agency

Financial and Administration Policy

The City, in conjunction with the various community-based CRA/TIF groups, has developed the following policies for presentation to and adoption by the Community Redevelopment Agency in order to establish clear, uniform administrative guidelines that will apply to all Community Redevelopment Areas. No part of these guidelines is intended to restrict the authority of the Community Redevelopment Agency or to conflict with Florida Statutes.

Formalizing these policies will best assure clear communication between and among representatives of affected communities. The community-based CRA/TIF groups and city staff will engage in joint planning and policy formulation. As a result, annual work plans and long-range planning for redevelopment initiatives will be better understood and have a higher likelihood of success.

Any proposed changes to these policies (including future year staff projections) will be formulated jointly by the community-based CRA/TIF groups and city staff before presentation to the Community Redevelopment Agency.

Community Redevelopment Area Representation

- Each CRA organization has/will have a committee (herein referred to as “community-based CRA/TIF group”) identified to interact with city staff regarding allocation of TIF revenues. The goal of this interaction is to reach consensus regarding annual and long-term TIF revenue planning and expenditures.

Annual TIF Budgeting

- City staff, in conjunction with the community-based CRA/TIF groups, will prepare a proposed annual work program and budget in accordance with the various CRA multi-year action plans to be presented to CRA for review and consideration. The Community Redevelopment Agency’s formal approval is necessary in order to establish annual TIF budgets.
- Proposed changes to an approved TIF budget will be developed by city staff in conjunction with the community-based CRA/TIF group prior to consideration by the Community Redevelopment Agency.
- Future year CRA work plans and budget submittals will be more-or-less coincidental with the City’s annual budget process, resulting in common (10/1 - 9/30) fiscal periods.
- Annual appropriations should be programmed pursuant to Florida Statutes, Chapter 163, Part III.

Financial and Administration Policy

Reimbursement to City for Creation of the CRA

- Reimbursements for direct out-of-pocket expenses (e.g. HCCCPC, consultants, legal notices and advertisement) will be expensed to the TIF fund for each CRA/TIF that is established after calendar 2004.
- No City staff expenses will be reimbursed.

Ongoing Reimbursement to City from TIF Revenues

- Revenue and Finance and Community Redevelopment Department will jointly establish a cost accounting practice that results in an accurate portrayal of annual staff and operating expenses for each CRA.
- The City, in conjunction with the community-based CRA/TIF groups, commits to maximize the use of TIF revenues for direct reinvestment in the Community Redevelopment Areas by critical annual review of the percentage of TIF revenues being applied to staff and operating expenses.
- Eventually, TIF revenues will cover 85% of the annual Community Redevelopment Department staff expenses. For the initial year, reimbursement to the City from TIF revenues will be 25% of staff expense. This percentage will be increased by 15% per year until the 85% level is reached (i.e. 25, 40, 55, 70, 85). Inasmuch as the Ybor TIF is already in place, the City staff expense percentage for 2005 will be at (55%), ramp up the nearest 15% increment in 2006, and increase 15% per year thereafter to the 85% level. Attached is a five-year staff projection for the Urban Development Department.
- Future year revenues will not be used to repay the City for reimbursed staff expenses from previous years.
- In the event that the City of Tampa and the Community Redevelopment Agency agree that the City is to up-front the cost of CRA initiatives, then future year TIF revenues from that CRA will be programmed to reimburse the City. Proposed reimbursement schedules will be developed by city staff in conjunction with the community-based CRA/TIF group prior to consideration by the Community Redevelopment Agency.
- Capital improvement projects funded with TIF revenues will bear direct and indirect capital project overhead charges in the same manner and using the same procedures as are administered to all other capital improvement project funds.

TIF Borrowing for Major Projects Policy

Financing for infrastructure projects and/or economic development activities in the CRAs shall be governed by the following policies. These policies are specifically targeted to the issuance of bonds, but may also be applicable to other forms of financing.

General Conditions

These conditions shall apply to typical improvement projects where the CRA/City controls all factors of the project, including the entire funding source(s) and timing.

- The financing shall rely on the credit of the CRA/TIF only.
- Back up funding sources including, but not limited to utility taxes, parking revenues, and/or the City's general funds shall not be used as a back-up pledge toward any financing.
- The terms and amounts of potential financing shall be dictated by prevailing market conditions at the time of the financing application, including, but not limited to:
 - Interest rates
 - Compliance for tax-exempt versus taxable status
 - Required debt service coverage ratio, and/or
 - Ability to underwrite the credit based on the historical performance and/or future projections of the TIF

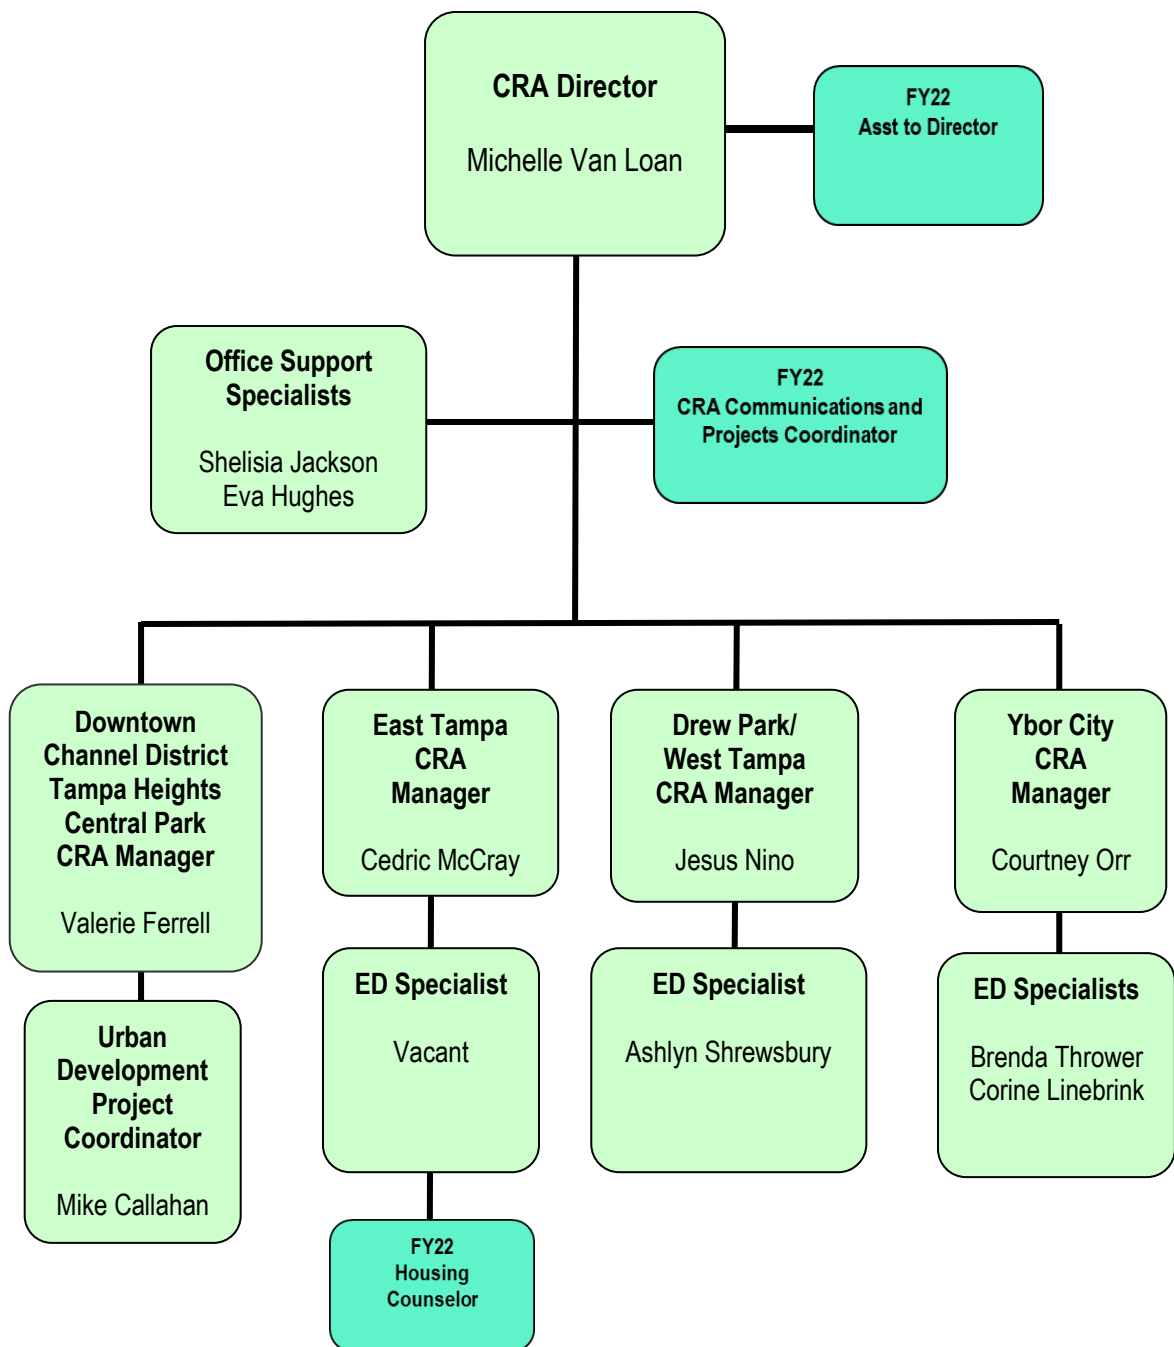

Special Conditions

These conditions shall apply to improvement projects where the CRA/City does not control all factors of the project or where compelling factors would cause prudent consideration of exceptions to the above general conditions. Some examples of these exceptions could be:

- Projects undertaken in cooperation with County, State, or other governmental entities where the other entity is bringing a significant portion of the funding to the project. Multiple governmental entities in a common project would amplify this condition.
- Projects where the timing is dictated by "emergency" conditions.
- Projects that are required in the sequence of an overall critical path schedule and the initial project timing is driven by an outside entity or emergency condition.
- CRAs where current TIF revenue is insufficient to satisfy the financing of a contemplated project(s), but due to historic trends of the existing TIF revenue and/or new projects actually under construction provide a high level of confidence in the expectation of future revenue.
- This policy is not intended to restrict the CRAs' assistance or support of private sector projects through the use of a project specific Redevelopment Agreement.
- In projects represented by the examples above or projects being influenced by other compelling factors, the financing policies in "General Conditions" should be reviewed for flexibility. In the event the City uses non-TIF funds to finance a CRA project, these non-TIF funds would be reimbursed to the City from future TIF revenues.
