Section D – What Mitigation are you applying for?

- a) 100%
Eligibility:
 Private stormwater management facility Parcel discharges to eligible non-City system Parcel with unique drainage features

Note: For parcels discharging to eligible non-City Stormwater System; the survey or site plan must depict the area of the parcel directly discharging to eligible waters and shall also display any additional area that is discharging to the City's system or other receiving waterbodies.

- b) 40%
Eligibility:
Parcel Owner owns, operates and maintains a private stormwater management facility that provides attenuation and treatment equal to that necessary for a 50 year storm event.

- c) 10%
Eligibility:
 Property contains properly functioning on-site treatment and attenuation Property owner contributes to maintenance of private system
(Note: Does not require Section G)

Section E – Application Checklist

Completed applications must be submitted after receiving the Certificate of Occupancy. The subject stormwater management system must be in compliance with all applicable site plans and permits. Adequate documentation must be submitted to evaluate the parcel and demonstrate its eligibility per the City's Code Section 21-123 and Mitigation Policy. Please note that the City reserves the right to request additional information if necessary. Incomplete applications will not be considered; however, we will hold your application for up to 6 months to allow adequate time to submit all required forms and documentation.

Please check one or combination of documents you are including with this application:

- Site survey or site plan depicting stormwater retention or detention (As-Built)
- Survey depicting the area of the parcel directly discharging to eligible waters, or private system
- Drainage survey plan
- Stormwater pond permit (SWFWMD, Florida DEP Resource Permit or City of Tampa)
- Subdivision Plat
- Topographic elevation survey
- Hillsborough County Property Appraisers parcel detail
- Other _____

Section F-Certification Statements

Sign below certifying that you have read the following statements and understand each one:

- The information in this application is truthful and accurate.
- The credited stormwater management system will stay in compliance with its site plan and permit requirements.
- I hereby grant the City of Tampa staff access to the property references in this document to inspect the facility or facilities proposed for a mitigation credit.
- I will notify the City of Tampa should any destruction or damage occur to the facility referenced in this mitigation credit application that prevents it from performing as credited.
- The credited stormwater management system is in compliance with the site plan and permitted requirements.
- If approved, all non-residential properties are required to submit to the City a recertification application and supporting documentation every 5th year after receiving a mitigation credit; attesting the on-site stormwater infrastructure which qualified the property to be eligible for the mitigation credit continues to exist and is maintained to be functioning as designed.
- The applicant will receive the recertification deadline on their approval letter, it is their responsibility to adhere to it and understands there is no other notification.
