

# Okara Road & 26th Street Force Main

**Flooding Relief; District 7**

Estimated cost: \$90K

## **Project Description:**

Currently the pond located at Okara Road and 26<sup>th</sup> Street outfalls via a temporary pump and force main system that discharges to the Mary Sink causing flooding under certain storm events. The proposed project will re-route the force main system as depicted in the map below. This will provide more capacity for the Mary Sink by diverting the flows.
