

## ABOUT THE **GOLFVIEW FLOODING RELIEF PROJECT**

The **Golfview Flooding Relief Project** consists of design and construction of a new drainage conveyance system, as well as the replacement and upsizing of the existing drainage conveyance system in a highly urbanized residential neighborhood. The upsized drainage system will connect to the City of Tampa's recently completed Dale Mabry-Henderson Trunkline project at W. Watrous Ave. and S. Dale Mabry Hwy. There will be opportunities to implement Green Infrastructure technologies and improve water quality with this project.
