### PROJECT DESCRIPTION

This project provides for corridor-wide maintenance, operational, multi-modal, safety and traffic calming improvements on the southeast half of the Tampa Palms Blvd loop - between Bruce B. Downs Blvd and Bruce B. Downs Blvd. The project includes operational and safety improvements to the two intersections of Compton Dr with Tampa Palms Blvd, and roadway improvements within the project limits to accommodate bicycle and pedestrian facilities, including traffic calming, reduced posted speeds, enhanced crosswalks, and pavement resurfacing.

### BENEFITS TO THE COMMUNITY

- Creates a safer corridor by implementing traffic calming measures to reduce travel speeds and promote a safer atmosphere for all road users.
- Improves pavement condition and rideability by resurfacing Tampa Palms Blvd within the project limits.
