125.01055 Affordable housing.—

(7)(a) A county must authorize multifamily and mixed-use residential as allowable uses in any area zoned for commercial, industrial, or mixed use if at least 40 percent of the residential units in a proposed multifamily rental development are rental units that, for a period of at least 30 years, are affordable as defined in s. 420.0004. Notwithstanding any other law, local ordinance, or regulation to the contrary, a county may not require a proposed multifamily development to obtain a zoning or land use change, special exception, conditional use approval, variance, or comprehensive plan amendment for the building height, zoning, and densities authorized under this subsection. For mixed-use residential projects, at least 65 percent of the total square footage must be used for residential purposes.

(b) A county may not restrict the density of a proposed development authorized under this subsection below the highest currently allowed density on any unincorporated land in the county where residential development is allowed under the county's land development regulations. For purposes of this paragraph, the term "highest currently allowed density" does not include the density of any building that met the requirements of this subsection or the density of any building that has received any bonus,

variance, or other special exception for density provided in the county's land development regulations as an incentive for development.

(c) A county may not restrict the floor area ratio of a proposed development authorized under this subsection below 150 percent of the highest currently allowed floor area ratio on any unincorporated land in the county where development is allowed under the county's land development regulations. For purposes of this paragraph, the term "highest currently allowed floor area ratio" does not include the floor area ratio of any building that met the requirements of this subsection or the floor area ratio of any building that has received any bonus, variance, or other special exception for floor area ratio provided in the county's land development regulations as an incentive for development. For purposes of this subsection, the term floor area ratio includes floor lot ratio.

(d)1.(e) A county may not restrict the height of a proposed development authorized under this subsection below the highest currently allowed height for a commercial or residential building development located in its jurisdiction within 1 mile of the proposed development or 3 stories, whichever is higher. For purposes of this paragraph, the term "highest currently allowed height" does not include the height of any building that met the requirements of this subsection or the height of any building that has received any bonus, variance, or other special exception for height provided in the county's land development regulations as an incentive for development.

2. If the proposed development is adjacent to, on two or more sides, a parcel zoned for single-family residential use which is within a single-family residential development with at least 25 contiguous single-family homes, the county may restrict the height of the proposed development to 150 percent of the tallest building on any property adjacent to the proposed development, the highest currently allowed height for the property provided in the county's land development regulations, or 3 stories, whichever is higher. For the purposes of this paragraph, the term "adjacent to" means those properties sharing more than one point of a property line, but does not include properties separated by a public road.

(e)(d) A proposed development authorized under this subsection must be administratively approved and no further action by the board of county commissioners is required if the development satisfies the county's land development regulations for multifamily developments in areas zoned for such use and is otherwise consistent with the comprehensive plan, with the exception of provisions establishing allowable densities, floor area ratios, height, and land use. Such land development regulations include, but are not limited to, regulations relating to setbacks and parking requirements. A proposed development located within one-quarter mile of a military installation identified in s. 163.3175(2) may not be administratively approved. Each county shall maintain on its website a policy containing procedures and expectations for administrative approval pursuant to this subsection.

~~(f)1.(e)~~ A county must consider reducing parking requirements for a proposed development authorized under this subsection if the development is located within one-quarter one-half mile of a ~~major~~ transit stop, as defined in the county's land development code, and the ~~major~~ transit stop is accessible from the development.

2. A county must reduce parking requirements by at least 20 percent for a proposed development authorized under this subsection if the development:

a. Is located within one-half mile of a major transportation hub that is accessible from the proposed development by safe, pedestrian-friendly means, such as sidewalks, crosswalks, elevated pedestrian or bike paths, or other multimodal design features; and

b. Has available parking within 600 feet of the proposed development which may consist of options such as on-street parking, parking lots, or parking garages available for use by residents of the proposed development. However, a county may not require that the available parking compensate for the reduction in parking requirements.

3. A county must eliminate parking requirements for a proposed mixed-use residential development authorized under this subsection within an area recognized by the county as a transit-oriented development or area, as provided in paragraph (h).

4. For purposes of this paragraph, the term "major transportation hub" means any transit station, whether bus, train, or light rail, which is served by public transit with a mix of other transportation options.

~~(g)(f)~~ For proposed multifamily developments in an unincorporated area zoned for commercial or industrial use which is within the boundaries of a multicounty independent special district that was created to provide municipal services and is not authorized to levy ad valorem taxes, and less than 20 percent of the land area within such district is designated for commercial or industrial use, a county must authorize, as provided in this subsection, such development only if the development is mixed-use residential.

(h) A proposed development authorized under this subsection which is located within a transit-oriented development or area, as recognized by the county, must be mixed-use residential and otherwise comply with requirements of the county's regulations applicable to the transit-oriented development or area except for use, height, density, floor area ratio, and parking as provided in this subsection or as otherwise agreed to by the county and the applicant for the development.

~~(i)(g)~~ Except as otherwise provided in this subsection, a development authorized under this subsection must comply with all applicable state and local laws and regulations.

2. Nothing in this subsection precludes a proposed development authorized under this subsection from receiving a bonus for density, height, or floor area ratio pursuant to an ordinance or regulation of the jurisdiction where the proposed development is located if the proposed development satisfies the conditions to receive the bonus except for any condition which conflicts with this subsection. If a proposed development qualifies for such bonus, the bonus must be administratively approved by the county and no further action by the board of county commissioners is required.

~~(k)(h)~~ This subsection does not apply to:

1. Airport-impacted areas as provided in s. 333.03.

(8) Any development authorized under paragraph (7)(a) must be treated as a conforming use even after the expiration of subsection (7) and the development's affordability period as provided in paragraph (7)(a), notwithstanding the county's comprehensive plan, future land use designation, or zoning. If at any point during the development's affordability period the development violates the affordability period requirement provided in paragraph (7)(a), the development must be allowed a reasonable time to cure such violation. If the violation is not cured within a reasonable time, the development must be treated as a nonconforming use.
