PREFACE

The Bar Charts and Diagrams in the Annual Awards Report provide a synopsis of contracting activity with Women and Minority Business Enterprises (WMBE) & Small Local Business Enterprises (SLBE) for **Fiscal Year 2022 (October 2021 to September 2022)**.

The policies and procedures in effect during the report period are those governed by the Equal Business Opportunity (EBO) Ordinance 2017-28, Chapter 26.5. City policy mandates developing initiatives that promote supplier-diversity and equity in the solicitation and award of publicly funded contracts. In addition, the City's Code of Ordinances invests the Mayor with authority to prescribe results-oriented action steps to remedy under-utilization of WMBE certified firms when Diversity Management Information (DMI) analytical reports conclude disparity exists within specific ethnic and gender business classifications. The policy initiatives outlined on page 8 represent the primary methods and business processes for facilitating WMBE & SLBE participation in contracts and the procurement of goods and services. **EBO Program Applications** are narrowly-tailored to maximize contract opportunities for under-utilized WMBE (U-WMBE) businesses as well as ensure access and participation by all Tampa Bay Area minority and small businesses (WMBE & SLBE).

The **2022 Annual Awards Report** illustrates the collective effort by City departments to continually improve access and opportunity for WMBEs & SLBEs to do business with the City of Tampa. The program initiatives administered by the Equal Business Opportunity Office focus on supplier-diversity business processes that promote "Economic Development through Opportunity".

What does this mean?

The Awards Report for **Fiscal Year 2021** shows how the City of Tampa worked with Women and Minority Business Enterprises (WMBE) & Small Local Business Enterprises (SLBE) from **October 2021 to September 2022**. The Equal Business Opportunity (EBO) Ordinance 2017-28, Chapter 26.5, which aims to make sure all kinds of businesses have a fair opportunity to acquire and participate in city contracts. Page 9 outlines the details of the EBO Program. This annual report demonstrates the efforts of city departments to utilize WMBEs & SLBEs in the procurement process.

PREAMBLE

Equal Business Opportunity Program

City of Tampa Equal Business Opportunity (EBO) Ordinance 2017-28, Chapter 26.5, promotes supplier diversity through viable contracting opportunities for small and ethnic-minority & women owned businesses in City procurement. The Office of Equal Business Opportunity (EBO) is charged with implementing the provisions of City Code and achieving results-oriented objectives for equal business opportunities. EBO's mission has two main components, the Women & Minority Business Enterprise (WMBE) and the Small Local Business Enterprise (SLBE) Program . The Ordinance also mandates evaluating program performance through developing Diversity Management Information System (DMI) reports, which delineate utilization of WMBEs and SLBEs based on total procurement, total dollars awarded and total actual payments.

Program Policy Objective

The SLBE Program is a primary initiative and open to all independently owned small businesses, including WMBEs that have operated for a minimum of one year and meet the business size standards and gross receipt limits. The program is ethnic and gender-neutral, with an emphasis on small businesses in the Tampa Bay area. The business owner must have permanent residence in Florida, and the company must be domiciled in the SLBE Market area (Hillsborough, Pinellas, Polk, Pasco, and Manatee Counties). The second component is the WMBE Program, which is ethnic and gender focused and requires validation of 51% WMBE ownership/control. The program establishes narrowly-tailored initiatives for WMBEs, which are promulgated on a legal basis and predicated on multi-year statistical evidence of disparity. When it is determined that disparity/underutilization exists for a given group, the Ordinance includes provisions that allow use of mandatory WMBE participation goals. The goals or remedies are specific to the affected group and industry category where disparity/underutilization is found (i.e. narrowly tailored).

Program Guidelines and Principles

The WMBE and SLBE Program initiatives currently implemented are based on findings in the City's Disparity Study as well as continuous metrics and analytics generated through the DMI program. The DMI program ensures the City remains compliant with the strict judicial guidelines and principles that apply to local government WMBE and SLBE contracting programs. The Office of EBO manages several business processes that provide comprehensive data collection, enhanced automation, and improved report methodology. The City continues to enhance EBO business processes with upgraded Diversity Management Software Modules. The upgrades integrate with the City's Enterprise Resource Planning (ERP) on the Oracle platform. The modules add a web-based Diversity Management Business functionality to the Equal Business Opportunity Program. It utilizes cloud-technology to facilitate efficient program interaction between vendors and EBO by providing: On-line Interactive WMBE & SLBE Certification, Subcontract Goal-Setting, Automated Contract Compliance Monitoring and Subcontract Payment Verification Audits. An overview of the functionality provided by the aforementioned modules is presented in the appendix of the report.

WMBE & SLBE Initiatives – ECONOMIC DEVELOPMENT THROUGH OPPORTUNITY

The City relies upon three basic methods of contracting to procure goods and services. The EBO policy initiatives enable the City to increase access and contract opportunities for certified WMBE & SLBE businesses that are available to perform on City contracts.*

SUBCONTRACTS: Contracts awarded by the general contractor (Prime) who hires the specialty trades needed to complete a project.

- Construction, non-professional **CONTRACT GOALS** for U-WMBEs: Minority and women businesses that have been underutilized (i.e., not received a pro rata of contract dollars), will have subcontract goals established on the contract to ensure WMBE companies are retained to provide some services and supplies.
- Consultants, Engineers, and Architects **PROPOSAL GOALS** for U-WMBEs: Minority and women businesses that have been underutilized (i.e., have not received a pro rata of consultant dollars), may have sub-consultant goals required in the RFP/RFQ when multiple professional disciplines are needed to perform the services.
- Set **ADDITIONAL SUBCONTRACT GOALS** for SLBEs: When availability of a U-WMBE group is insufficient to bid the services or supplies, a SLBE goal will be established on the contract. Fact: Many SLBEs are also certified WMBEs. This initiative ensures that non-minority small businesses and dual certified WMBEs & SLBEs continue to have access and opportunity. An overall WMBE & SLBE outreach goal may be considered when availability under a disparity/predicate does not exist nor the requisite for SLBEs.
- ***RATING POINTS** from 1 to 20 awarded for WMBEs Participation: When WMBE sub-consultants are members of the team in an RFP/RFQ proposal, the non-certified Prime proposal will be awarded additional evaluation points (up to 20) on an overall scale of 100 as a factor in the selection of the proposal.

FORMAL CONTRACTS: Contracts above \$25,000 require a formal process (e.g. advertise, public open, surety bonds).

- **BID DISCOUNT OF 5%:** Allows the U-WMBE or SLBE bidder to be within 5% of the lowest bidder but cannot exceed \$20,000 for WMBEs and \$10,000 for SLBEs. (e.g., low bid is \$50,000; WMBE & SLBE bid can be \$52,000 and eligible for award).
- ***RATING POINTS** from 1 to 20 awarded for U-WMBEs Participation: When a U-WMBE firm is the Prime Consultant on an RFP/RFQ, this initiative will award 16 to 20 rating points on a scale of 100, as a factor in the selection.
- **SHELTERED MARKET THRESHOLD IS \$300,000** and includes U-WMBEs & SLBEs: Sheltered Market bids allow certified U-WMBEs & SLBEs to bid within their peer group. Sheltered procurements require 3 or more certified firms and range from \$25,000 to \$300,000 allowing more solicitations to be targeted for U-WMBEs or SLBEs that have the capacity to perform as prime contractors. CCNA Work Order contracts can range from \$25,000 to \$100,000 for sheltering of professional surveying, engineering, and architectural services.

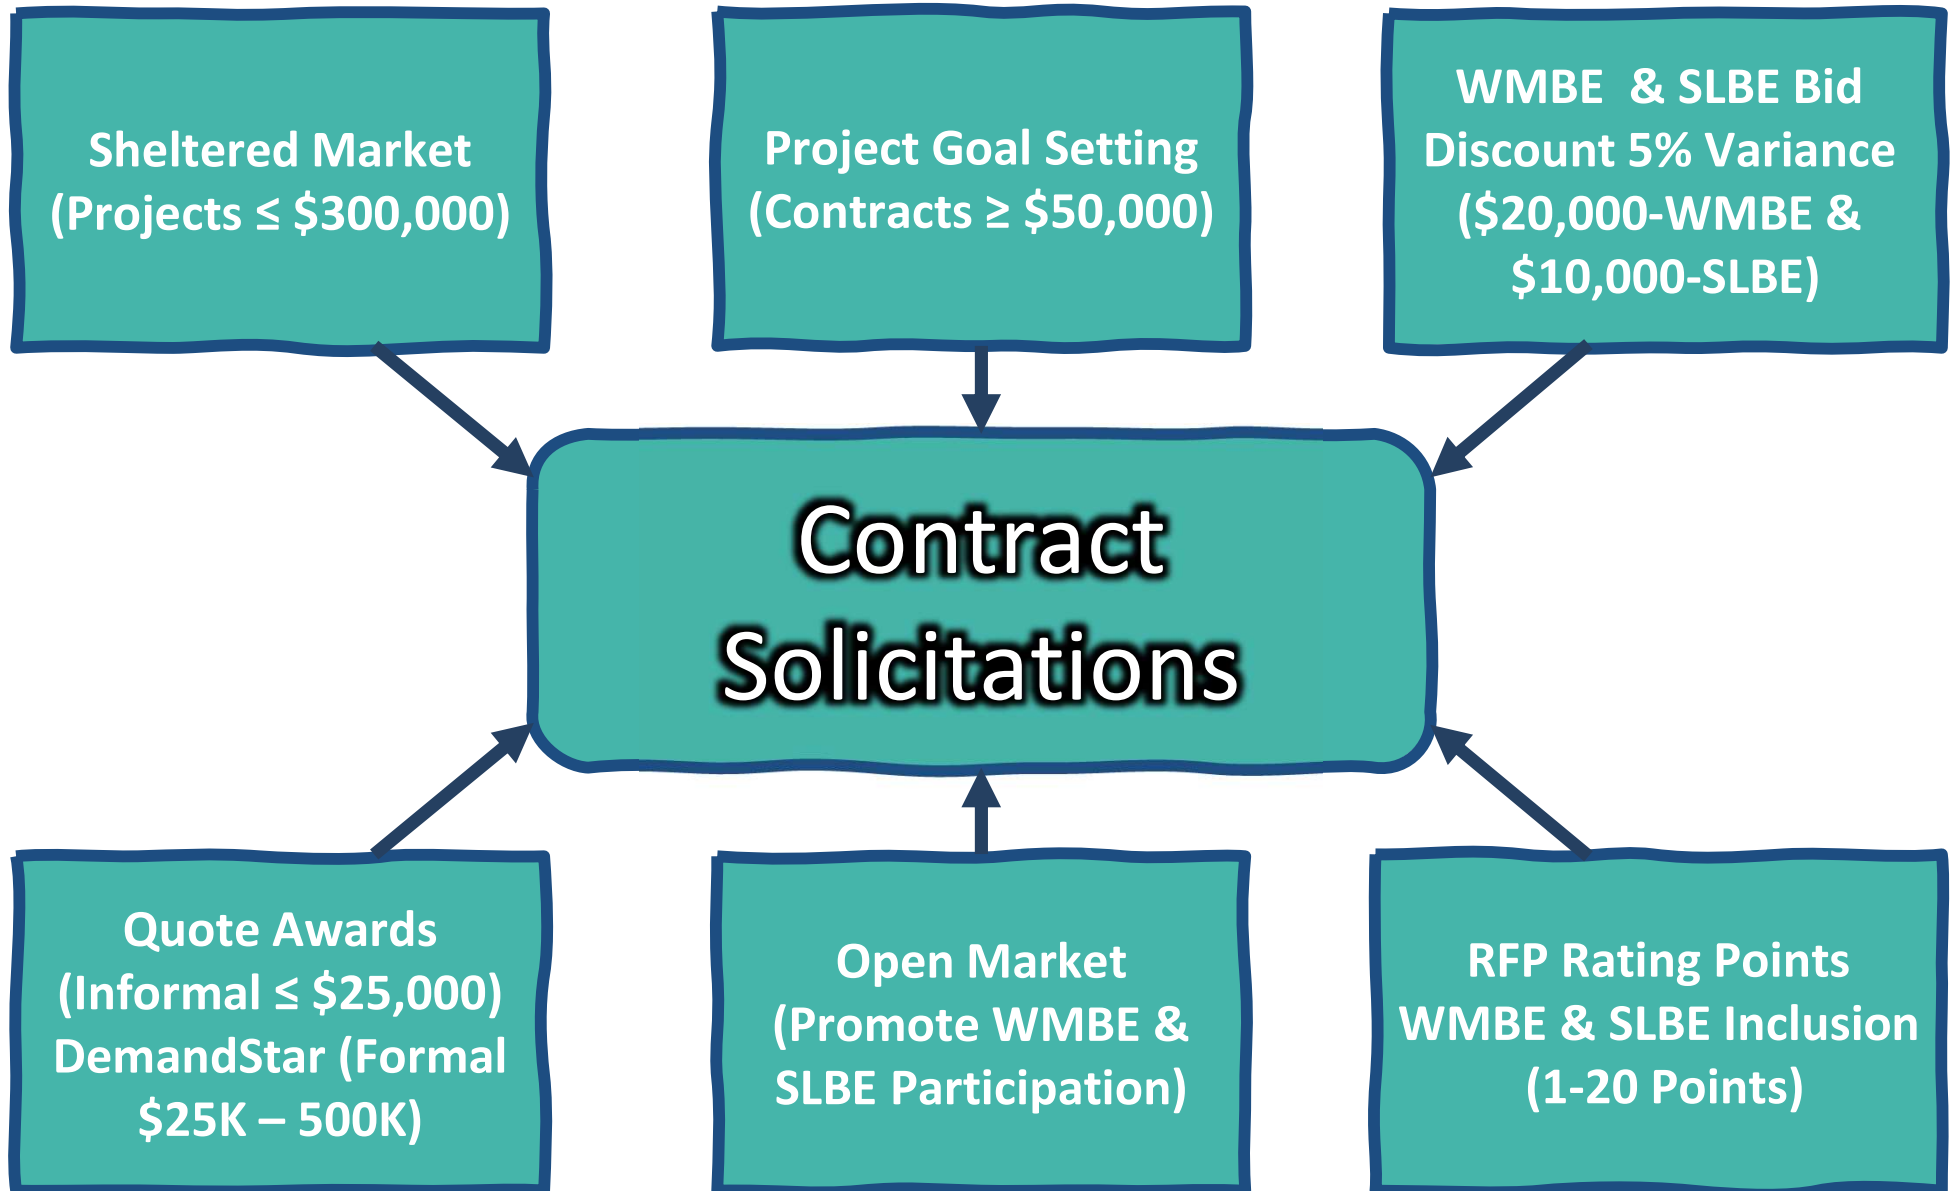

INFORMAL CONTRACTS: Quotes between \$2,000 and \$24,999.99 will be targeted to the U-WMBE & SLBE groups via DemandStar. Small value solicitations have fewer legal restrictions and more discretion in awarding.

- **SHELTERED MARKET** for U-WMBEs & SLBEs: Informal Sheltered Market allows only U-WMBEs & SLBEs to quote across all 5 industry categories (Construction Services, Construction-Related Services, Professional Services, Non-Professional Services, and Goods). SLBEs will be included in Sheltered Market quotes only when there are not the requisite 3 U-WMBEs available to be competitively solicited.
- **BID DISCOUNT OF 5%:** This allows a quote from only the U-WMBE to be within 5% of the lowest bid. (e.g., If a low bidder submits a bid of \$4,000, a U-WMBE firm may submit a bid of \$4,200 and be awarded an informal contract).

**In 2019, the Rating Points increased from 10 points to 20 points.*

Goal Attainment for ALL WMBE & SLBE

Note: Chart compares the average WMBE & SLBE participation “goal-set” on projects, i.e., \$54.1, that had pre-determined subcontract opportunities, versus the actual-overall “percent of participation” achieved at contract award. Total reviewed projects estimated over \$54.1M for potential goals. *Total contract dollars include overhead and profit and the cost of goods or services by the prime contractor.

Analysis: In FY22 overall subcontract participation average goal attainment was **9.1%** over the targeted actual goals established on eligible projects. This can be attributed to the City’s commitment to economic inclusion through assessing subcontract opportunities in all procurement activity, ensuring accountability across operating departments, ensuring bidder awareness of Equal Business Opportunity guidelines and, EBO enforcement of GFE Compliance Plans.

Values with decimals may be rounded up or down based on the calculation.

WMBE & SLBE PARTICIPATION VIA SUBCONTRACT GOAL ATTAINMENT

Values with decimals may be rounded up or down based on the calculation.

Note: Chart reflects subcontract participation by ethnicity and gender as a percentage of total WMBE & SLBE subcontract dollars awarded, i.e., \$12.5M. A concerted effort by the City organization is paramount to effective implementation of the Administration’s WMBE & SLBE policy initiatives; thus, assuring adherence to EBO procurement guidelines and prohibiting pro-forma solicitation by bidders/proposers who marginalize participation goals. The expectation is that a bidder’s supplier-diversity strategy, active outreach efforts and commitment to inclusion can, in prospect achieve participation commensurate with WMBE & SLBE goals.

Analysis:

WMBE & SLBE Goal Attainment is \$12.5M.

Total **WMBE** Subcontract awards is **\$6.3M.**

(50.4% of overall WMBE & SLBE Goal Attainment)

Total **SLBE** subcontract awards is **\$6.2M**

Applicable Policy - Determining Factors:

- Procurement Type
- ITB vs. RFP
- Estimated Value
- Work Scope
- Underutilized WMBE & SLBE Availability

Notes:

- When availability of an underutilized group is insufficient to set a WMBE-specific goal, an SLBE goal will be established on Prime Bids and Prime Proposals.
- Underutilized WMBEs will be included with SLBEs to fulfill the requisite availability of 3 certified firms to designate the procurement as Sheltered Market.
- Underutilized WMBEs will be solicited for informal quotes (e.g., P-Card/Phone); SLBEs will also be solicited, specifically when product/service isn't available through the underutilized WMBE group.

EBO Audit Steps:

1. City payments to prime contractor are input into the Diversity Management Business System
2. System alerts the prime of pending audits for "Prompt Payment" to all sub-contractors
3. Prime enters number of payments made to all sub-contracts for audit period
4. Sub-contractors are notified of payments reported by the prime for their services
5. Sub-contractors verify actual number of payments received to what was invoiced
6. Sub-contractor agrees to payment amount and EBO authorizes contract is in compliance.
7. (A-B) If discrepancies or disagreements occur the system alerts all parties and EBO initiates corrective action to bring contract into compliance
