

Copeland Park Force Main

Flooding Relief; District 7

Estimated cost: \$600K

Project Description:

Currently a temporary pump is utilized to drain the low-lying area in Copeland Park. A permanent pumping station is proposed to replace the temporary pump and provide a more reliable system to better alleviate the flooding in the area.

The project consists of construction of new force main connecting Copeland Pumping Station to the existing drainage system on E 111th Ave. and N 26th St. area.
