- How to encourage more business to move to the inner city

Median hourly wage
Poverty rate gap
Unemployment rate
Educational attainment

4. Economic Diversification

Share of various sectors
Share of technology
Share of high wage jobs
Investment in skill development

Overall Category Conversation Comments:

- Inclusive Economic Growth: Is the growth truly inclusive and benefitting everyone? We may need to look at specific slices to better understand the impact of the overall growth. Understanding there is a difference between growth overall v. inclusive growth for all
- Job Growth – How are we taking into account the impact of COVID on job growth?
- Housing – What are we considering to be economically accessible housing? How do we ensure that residents have affordable housing?
- Racial & Gender Equity – How do we better analyze the diversity amongst the multitude of populations that are traditionally categorized under "minority"
- Share v. Volume – Be able to measure both, particularly for job metrics
- Talent - Add additional metrics to demonstrate the demographics, skills in addition to education attainment metrics. Be sure to capture critical metric of early childhood reading skills. Ensure we measure different trade school/trade certification attainment in addition to college attainment
- Post-Pandemic Measurement v. Pre-Pandemic: How do we ensure we are more resilient going forward?
- Impact of a lack of public transportation infrastructure on job, education, healthcare access. More analysis to understand exactly where transportation is needed
- Ensure that proposed policies receive feedback from a broader set of stakeholders (e.g., someone who relies on public transportation for job)
- Broadening our skills measurement – Digital skills, soft skills
