

Leaks Can Run, But They Can't Hide

You may consider taking the following steps to find leaks in your home.

Check Your Bill

Look for changes: Is your water use higher this month than before?

Read Your Meter*

Turn off the water inside and outside your house, then check your meter. If the leak detection triangle is moving, you may have a leak.

Test Your Toilet

Put a few drops of food coloring into your toilet tank and let it sit for 15 minutes. Don't flush. If color shows up in the bowl, you may have a leaky flapper or valve.

Fix a Leak Week

March 17 - 23, 2025

Request a free flapper at
tampa.gov/WaterLeaks

**Please note: Meter box covers can be heavy. Do not attempt to move the cover unless you are physically capable of lifting it.*
