PROJECT DESCRIPTION

This project provides for mobility improvements by providing “share the road” signs and pavement markings, high emphasis crosswalks, and reduced speed limits. The City's mobility improvement project will occur concurrently with the Westshore Alliance's intersection improvement project on Gray Street at Lois Avenue and Gray Street at Himes Avenue.

BENEFITS TO THE COMMUNITY

- Improved multimodal options through the installation of “share the road” signs and sharrow pavement markings.
- Increased safety by lowering the corridor speed limit, adding high emphasis crosswalks, and median improvements.
