### PROJECT DESCRIPTION

The Palmetto Beach will enhance the project corridor to improve the vitality, safety, and resiliency of the Palmetto Beach neighborhood. This project includes the following:

- Reconstructing and amenitizing the existing seawall on Bermuda Blvd. including an 8 ft. wide seawall trail.
- Installation of backflow preventers at the seawall outfall pipes.
- Implementation of Complete Streets concept to support the mobility needs of all, along 22<sup>nd</sup> St., 26<sup>th</sup> St., and Bermuda Blvd.
- Adding enhanced pedestrian crossings.
- Roadway resurfacing and narrowing travel lanes.
- Installation of tree wells and bioswales along the roadway shoulders.
- Connects to the proposed Green ARTery Perimeter Trail.

### BENEFITS TO THE COMMUNITY

- Improved resiliency of the entire community from flooding and storm damage.
- Will establish a new waterfront boulevard and trail.
- Improved connections between the Palmetto Beach neighborhood and Downtown Tampa.
- Improved habitat in McKay Bay.
- Improved vitality of the neighborhood through the incorporation of Complete Streets improvements to improve roadway safety and ensure accessibility for all users.
