If, in its sole discretion the CITY of Tampa determines that a professional conflict of interest is deemed to exist, the CONSULTANT shall be disqualified from participating in the proposed Project.

**GENERAL**

Background: The Water Department desires to make certain improvements to the railroad side track to address drainage and known rehabilitation needs. A railroad side track running from a Chessie Seaboard Xpress (CSX) rail line to the David L. Tippin Water Treatment Facility (DLTWTF) has been in use since the mid-1920s. The side track is used to receive rail shipments of chemicals used for the treatment of water. The tracks are nearly 100 years old and the rails and ties are deteriorating in many locations along the track. Due to the poor track conditions, the CSX does inspection of the tracks before allowing deliveries of the chemicals to the treatment plant. In addition, a portion of the railroad tracks currently flood during various rain events. Due to this fact, the vertical elevation of tracks will need to be raised to alleviate the flooding of the tracks. A hydrologic and hydraulic stormwater analysis for the existing and proposed conditions will be completed for the contributing drainage basin.

For the purposes of this scope, the limits for the side track design will extend from the existing railroad tracks just west of Rowlett Park Drive to 30<sup>th</sup> Street for an approximate length of 2,400 linear feet. A portion of the tracks from 30<sup>th</sup> Street to the DLTWTF have been replaced within the last seven years. The stormwater study will include the contributing drainage watershed from the south of the railroad tracks generally bound by 22<sup>nd</sup> Street on the west, Hillsborough Avenue on the south and Rowlett Park Drive and 30<sup>th</sup> Street on the east. The stormwater runoff ultimately drains to the Hillsborough River to the north of the project.

We will conduct the field review, and submit/coordinate final documentation to receive agency approval of the established wetland jurisdictional lines. Additionally, we will request the EPC to concur with our assessment that the on-site qualifies as an upland cut ditch, which will qualify for a noticed exception through EPC.
  - Forward appropriate information to the surveyor to accurately survey the wetland jurisdictional lines and review the final survey for accuracy. If revisions are required, written comments will be provided to the surveyor in memorandum or email format.
  - Once the approved jurisdictional wetland lines have been surveyed, forward the survey to the EPC requesting formal approval of the survey. The EPC and the Southwest Florida Water Management District (SWFWMD) have a memorandum of understanding to accept each other's wetland lines, therefore, a copy of the approved wetland survey can be provided to SWFWMD during the Joint Environmental Resource Permit (ERP) permitting process upon request, and a field review with the SWFWMD will not be required.

All provisions intended to survive or to be performed subsequent to the expiration or termination of the Agreement shall survive, including without limitation Firm's obligation to maintain or renew coverage, provide evidence of coverage and certified copies of policies, etc. upon City's request and/or in response to a potential claim, litigation, etc.

The City reserves the right from time to time to modify or waive any or all of these insurance requirements (or to reject policies) based on the specific nature of goods/services to be provided, nature of the risk, prior experience, insurer, coverage, financial condition, failure to operate legally, or other special circumstances. If Firm maintains broader coverage and/or higher limits than the minimums shown herein, the City requires and shall be entitled to such broader coverage and/or higher limits maintained by Firm. Any available insurance proceeds in excess of the specified minimum limits of insurance and coverage shall be available to the City. No representation is made that the minimum insurance requirements are sufficient to cover Firm's interests, liabilities, or obligations. Required insurance shall not limit Firm's liability.

Firm acknowledges and agrees Firm and not the City is the party in the best position to determine applicability (e.g. "IF APPLICABLE"), confirm, and/or verify its insurance coverage. Acceptance by the City, or by any of its employees, representatives, agents, etc. of certificates or other documentation of insurance or policies pursuant to the terms of this document and the Agreement evidencing insurance coverages and limits does not constitute approval or agreement that the insurance requirements have been met or that coverages or policies are in compliance. Furthermore, receipt, acceptance, and/or approval of certificates or other documentation of insurance or policies or copies of policies by the City, or by any of its employees, representatives, agents, etc., which indicate less coverage than required does not constitute a waiver of Firm's obligation to fulfill these insurance requirements.
