## 1.0 Purpose

This design criteria package aims to establish the basis and goals for Design-Build Services related to the Water Department Supervisory Control and Data Acquisition. This package is not a specification or prescriptive checklist and is not intended to replace the professional judgment of a competent licensed professional engineer after coordination with the Water Department and other stakeholders of the City of Tampa as may be identified during the work.

Currently, the anticipated budget is \$20 million. The work may be performed in phases over a longer period of time and the budget may increase or decrease due to the results of the incorporated studies/evaluations and market conditions. All work will require City Council and Mayor approval before a notice-to-proceed is granted.

## 2.0 Background

The David L. Tippin Water Treatment Facility (DLTWTF) utilizes a level of automation that relies on sophisticated digital networks and computer systems to monitor and operate each step of the water treatment process, water distribution system, and business operations. While virtually the entire DLTWTF process will be upgraded in the years to come, select Programmable Logic Controllers (PLCs) and associated hardware are no longer supported and need to be upgraded.

Additionally, to facilitate future process improvements at DLTWTF, the Department needs to upgrade Operational Technology (OT) Infrastructure as it is now reaching the end of its useful life.

It is anticipated this project may result in one or more sub-projects based on separate construction project needs and the results of evaluations and/or business needs. It is expected to generally follow an Evaluation → Design → Construct sequence. Progression to the design phases will only occur for those cases that are deemed viable by the Department.

Although the exact scope of construction services will be developed during GMP Development, it is anticipated that Construction Phases will include the following:

- Pre-construction Activities
- Construction and Program Management
- Startup and Commissioning Services
- Performance Testing
- As-built Record Drawing Development
- Population of Asset Management Attribute Data
- Operation and Maintenance Manual Development
- Standard Operating Procedures Development
- Regulatory Agency Approvals and Building Permits from the City's Construction Services Department
- Training of Staff

### 3.0 DLTWTF PLC Upgrade and OT-HMI Design Implementation

The Department and their consultant developed an OT Design which will serve as the basis for the new SCADA infrastructure improvements located at DLTWTF. Additionally, contract documents are in the process of being finalized which are intended to address select PLCs and associated hardware which are no longer supported.

Utilizing both design documents, the selected firm will provide the necessary Pre-Construction and Construction services to complete the DLTWTF PLC Upgrade and OT Design Configuration and Start-up.

In parallel, evaluation and planning will be needed to develop an approach for each process at DLTWTF and remote sites which will reside either on the existing or new OT Infrastructure. This will require significant collaboration and coordination with the Department, Technology and Innovation Department, external contractors, and external consultants. The sites to be considered are:

- David L. Tippin Water Treatment Facility (DLTWTF)
- Interbay Re-pump Station (RPS)
- Morris Bridge RPS
- US 301 Interconnect
- Waters Tank
- Palma Ceia Tank
- West Tampa Tank
- Northwest Ground Storage Tank (GST)
- Pressure Monitoring Sites
- Water Quality Monitoring Sites
- Aquifer Storage & Recovery (ASR) – Injection/Recovery wells

The same collaboration and coordination will be necessary as the assignments are expected to transition to a heavy role with programming and integration of upcoming process improvements at the DLTWTF.

### 4.0 Other Potential Projects

A detailed scope of services will be developed for each project and may follow different paths based on Departmental needs and funding limitations. Anticipated projects, in addition to the DLTWTF PLC and OT Upgrades, follow.

1. Continuity of Operations Planning (COOP) and Evaluation and Design
2. Remote Site PLC Upgrade Design
3. Remote Site PLC Upgrade and COOP Construction
4. Regulatory Reporting and Data Retrieval Evaluation, Design, and Implementation
5. Network Monitoring, Intrusion Detection, and Security Improvements
6. Pre-Construction Services, Programming, and Integration
  - a. Filter Expansion
  - b. New Switchgear and Sitewide Electrical Improvements
  - c. Ozone Upgrade
  - d. Oxygen Concentration
  - e. New Raw Water Pump Station

- f. Solids Dewatering
  - g. Suspended Ion Exchange
  - h. Actiflo
  - i. Security Improvements
7. As-needed SCADA Troubleshooting, Support, and Owner's Representative
  8. Business Performance Dashboard Evaluation, Framework Development, and implementation
  9. Recommendation and development of an "Intelligent O&M" Operation and Maintenance digital tool to provide direct and predictive guidance for frontline staff. This predictive tool and algorithms should be able to pull data from various sources and run through a process model to make real-time predictions. It is anticipated that training staff will be part of this task.

The Hourly Rate increase per year from the Notice to Proceed date should be based on the Employment Cost Index (ECI) Historical Listing and be a maximum of 3%. The Firm will provide the new suggested Fee Schedule ninety (90) days prior to the previous year's approval date for review and acceptance by the City. See Proposed Method of Labor Rate Escalation below for additional information.

The Firm will implement a markup fee of 5% on subconsultant services; which, will be applicable to each respective Task Order.

All ICS hardware and software material procurement direct cost (including freight and taxes) multiplied by 1.08 (8% markup). Detailed itemization/ receipts will be submitted with invoices.

### **Proposed Method of Labor Rate Escalation**

Adjustments shall be based on the Employment Cost Index (ECI) Historical Listing published by the Bureau of Labor or Statistics (<https://www.bls.gov/web/eci/echistrynaics.pdf>). Specifically, the escalation rate shall be calculated from the indices presented in Table 8 (Employment Cost Index for wages and salaries, for civilian workers, by occupational group and industry, Service-providing industries). For the current edition (July 2020), the ECI factors for this occupational group is located on page 127 and 128. Adjustments shall be made annually and shall be based on the percentage change in the ECI from September of the prior year to September

of the current year. Prices may be adjusted to a maximum rate of 3% annually or remain the same should the ECI decrease.

For example:

Base Labor Rate= \$100

ECI for September 2024 (current year) = 139.6

ECI for September 2025 (prior year) = 135.8

Escalation Factor=  $139.6 / 135.8 = 1.028$

Escalated Labor Rate=  $\$100 \times 1.028 = \$102.80$

In the event the Bureau of Labor Statistics significantly alters the method of calculating the index, an appropriate adjustment shall be made to restore the contract adjustment mechanism to the original intent of the parties.

## CITY OF TAMPA INSURANCE REQUIREMENTS DB/GMP

Prior to commencing any work or services or taking occupancy under that certain written agreement or award (for purposes of this document, Agreement) between the City of Tampa, Florida (City) and Firm/Awardee/Contractor/Consultant/Lessee/non-City party, etc. (for purposes of this document, Firm) to which this document is attached and incorporated as an Exhibit or otherwise, and continuing during the term of said Agreement (or longer if the Agreement and/or this document so requires), Firm shall provide, pay for, and maintain insurance against claims for injuries to persons (including death) or damages to property which may arise from or in connection with the performance of the Agreement (including without limitation occupancy and/or use of certain property/premises) by Firm, its agents, representatives, employees, suppliers, subcontractors, or subcontractors (which term includes sub-consultants, as applicable) of any tier subject to the terms and conditions of this document. Firm's maintenance of insurance coverage as required herein is a material element of the Agreement and the failure to maintain or renew coverage or provide evidence of same (defined to include without limitation Firm's affirmative duty to provide from time to time upon City's request certificates of insurance, complete and certified copies of Firm's insurance policies, forms, and endorsements, information on the amount of claims payments or reserves chargeable to the aggregate amount of coverage(s) whether during the term of the Agreement or after as may be requested by the City in response to an issue or potential claim arising out of or related to the Agreement to which Firm's insurance obligations hereunder may apply or possibly help mitigate) may be treated as a material breach of the Agreement. Should at any time Firm not maintain the insurance coverages required, City at its sole option (but without any obligation or waiver of its rights) may (i) terminate the Agreement or (ii) purchase such coverages as City deems necessary to protect itself (charging Firm for same) and at City's option suspending Firm's performance until such coverage is in place. If Firm does not reimburse City for such costs within 10 days after demand, in addition to any other rights, City shall also have the right to offset such costs from amounts due Firm under any agreement with the City. All provisions intended to survive or to be performed subsequent to the expiration or termination of the Agreement shall survive, including without limitation Firm's obligation to maintain or renew coverage, provide evidence of coverage and certified copies of policies, etc. upon City's request and/or in response to a potential claim, litigation, etc.

The City reserves the right from time to time to modify or waive any or all of these insurance requirements (or to reject policies) based on the specific nature of goods/services to be provided, nature of the risk, prior experience, insurer, coverage, financial condition, failure to operate legally, or other special circumstances. If Firm maintains broader coverage and/or higher limits than the minimums shown herein, the City requires and shall be entitled to such broader coverage and/or higher limits maintained by Firm. Any available insurance proceeds in excess of the specified minimum limits of insurance and coverage shall be available to the City. No representation is made that the minimum insurance requirements are sufficient to cover Firm's interests, liabilities, or obligations. Required insurance shall not limit Firm's liability.

Firm acknowledges and agrees Firm and not the City is the party in the best position to determine applicability (e.g. "IF APPLICABLE"), confirm, and/or verify its insurance coverage. Acceptance by the City, or by any of its employees, representatives, agents, etc. of certificates or other documentation of insurance or policies pursuant to the terms of this document and the Agreement evidencing insurance coverages and limits does not constitute approval or agreement that the insurance requirements have been met or that coverages or policies are in compliance. Furthermore, receipt, acceptance, and/or approval of certificates or other documentation of insurance or policies or copies of policies by the City, or by any of its employees, representatives, agents, etc., which indicate less coverage than required does not constitute a waiver of Firm's obligation to fulfill these insurance requirements.

## Exhibit E

### Tampa's Equal Business Opportunity Program Procedures for GMP Contracts

- The City of Tampa's Equal Business Opportunity Program (EBO) requires setting a construction subcontract goal on each GMP under the CM /or D-Build delivery system.
- Prior to the time construction subcontract goals are set, the Construction Manager (CM) or the Design-Builder (D-B) provides information on subcontract packages planned for the construction phase(s) and their sequencing.  
**(Ref: use Detailed GMP Estimate and MBD Form-80 PTW)**
- The CM (or D-B) participates in a meeting wherein the City will establish narrowly-tailored project goals for SLBE and/or W/MBE subcontractor participation on the project.  
**(Ref: use MBD Form-70)**
- For each subcontracting package to be bid, the CM (or D-B) confirms with the MBD Office, the City's minimum contact list of available SLBE and/or W/MBE firms to be solicited. Note: strategic, extensive outreach is the CM/DB's responsibility (i.e. GFCEP)  
**(Ref: use Minimum Contact List provided w/final Project EBO Determination Goal)**
- The CM (or D-B) documents the notification of **all** potential subcontractors, including the SLBE or W/MBE firms identified above, i.e. minimum contact list of certified firms.  
**(Ref: use DMI 10-20 for construction phase Solicitation/Utilization outcomes)**
- The CM (or D-B) receives, opens, and tabulates subcontract bid results. The City, including representatives of the managing department and the MBD Office, may be present for the bid openings or to review the bids submitted.  
**(Ref: use MBD Form-50 GFCEP outreach w/documentation)**
- The CM (or D-B) provides to the City, a tabulation of all bids received and its determination of the lowest responsive/responsible bidder. If bids received exceed contracted Guaranteed Maximum Price, CM (or D-B) advises City as to how they will proceed. If re-bidding is selected, notification at least equal to the original solicitation will occur. **(Ref: Reaffirm EBO Outreach)**
- As all subcontracts are executed, final copies are provided to the City. Where participation is achieved via sub-subcontractors and/or suppliers, the CM (or D-B) provides the City and MBD with copy of executed agreement or purchase order as documentation. **(Ref: use MBD Form-40 LOIs execute "Letters-of-Intent")**
- During construction, monitoring activities may including but may not be limited to, subcontractor payment reports to be submitted with pay requests, prior approval by the MBD Office and the managing departments, of any replacement of SLBE or W/MBE subcontractors, and a report of final amounts paid to all subcontractors.  
**(Ref: use #1-DMI 30 Form w/Pay Applications; #2-Prime & Subs must log into Diversity Mgt. Compliance System to report payment activity)**
