Dear Mr. Lynch,

Pursuant to award of the City of Tampa (CITY) Howard F. Curren Advanced Wastewater Treatment Plant (HFC AWTP) NPDES Permit Renewal (RFQ 24-D-00036), Arcadis U.S. Inc. (CONSULTANT) is pleased to present this proposal to provide professional engineering services to assist the CITY in the renewal of the permit.

Introduction

The CITY owns and operates the HFC AWTP, located at 2700 Maritime Boulevard, Tampa, FL. The facility is an existing 96.0 million gallons per day (MGD) annual average daily flow (AADF) permitted capacity Type I two-stage, high rate activated sludge biological nitrification / denitrification domestic wastewater treatment plant. The HFC AWTP operates under the Florida Department of Environmental Protection (FDEP) Permit No. FL0020940, which was issued on March 9, 2021 and expires on March 8, 2026. The renewal application must be submitted a minimum of 180 days prior to the permit expiration (September 9, 2025).

The professional engineering services shall include engineering and technical documentation required to comply with FDEP requirements and regulations for the permit renewal.

Background

The HFC AWTP is operated to discharge high-level disinfected and dechlorinated effluent to Hillsborough Bay. Residuals are stabilized to Class B biosolids standards and are dewatered for land application.

The facility is permitted for surface water discharge to the following three locations:

1. Surface Water Discharge D-001: An existing 96.0 MGD AADF discharge to Hillsborough Bay (Upper), Class III Marine waters, (WBID# 1558E) which is approximately 141 feet in length and discharges at a depth of approximately 29.1 feet. The point of discharge is located approximately at latitude 27 deg 54' 41" N, longitude 82 deg 26' 27" W.
2. Surface Water Discharge D-002: An existing intermittent discharge to Ybor City Drain, Class III Marine waters, (WBID# 1584A) which discharges at a depth of approximately 4.5 feet. Ybor City Drain flows into WBID 1558E of Hillsborough Bay (Upper). Outfall D-002 shall only discharge as a result of flows to the treatment plant in excess of approximately 100 MGD coupled with extreme high tide conditions. The point of discharge is located approximately at latitude 27 deg 54' 41" N, longitude 82 deg 26' 27" W.

3. Surface Water Discharge D-003: An existing intermittent discharge to Ybor City Drain, Class III Marine waters, (WBID# 1584A) which discharges at a depth of approximately 6.8 feet. Ybor City Drain flows into WBID 1558E of Hillsborough Bay (Upper). Outfall D-003 shall only discharge as a result of flows to the treatment plant in excess of approximately 100 MGD coupled with extreme high tide conditions. The point of discharge is located approximately at latitude 27 deg 54' 41" N, longitude 82 deg 26' 27" W.

The HFC AWTP also has a reuse system permitted at the following three land application sites:

1. Land Application R-001: An existing 6.0 MGD AADF permitted capacity slow-rate public access system (City of Tampa Public Access Reuse System) consisting generally of the City of Tampa service area.
2. Industrial Reuse R-002: An existing 2.3 MGD AADF permitted capacity Part VII industrial reuse system providing Part III quality reclaimed water for use as cooling water and minor irrigation at the City of Tampa Refuse to Energy Facility (McKay Bay Facility). R-002 is located approximately at latitude 27 deg 56' 56" N, longitude 82 deg 25' 19" W.
3. Industrial Reuse R-003: An existing industrial reuse system providing secondary treatment reclaimed water to a closed-loop system for heating purposes at Mosaic Fertilizer, LLC (Formerly CF Industries). R-003 is located approximately at latitude 27 deg 55' 02" N, longitude 82 deg 26' 14" W.

Task 3.5 – Collection System Action Plan

Rule 62-600.705(2), F.A.C., became effective on June 28, 2023, and requires all domestic wastewater facility permittees to develop a pipe assessment, repair, and replacement action plan for the facility's collection system, or a Collection System Action Plan. A summary of the plan must be submitted to FDEP with the facility permit application for any new permit, permit renewal, or substantial permit revision. Additionally, after a facility permittee has developed and submitted a collection system action plan to FDEP, an annual report on the implementation of the plan must be submitted by June 30 each year.

Per the FDEP, the goal of a collection system action plan is to prevent sanitary sewer overflows (SSO) and leakages that may endanger public health and the environment. The plan is a proactive approach to assess the condition of the collection system to identify needed maintenance, repairs, and rehabilitation of the system.

The Collection System Action Plan will be created by following the plan template provided by the FDEP (FRWA - Collection System Action Plan template).

Utilizing information from the CITY, the following items will be developed and included by CONSULTANT in the Collection System Action Plan:

Mr. Charlie Lynch, PE
City of Tampa
January 9, 2025

1. The plan will cover a 5-year planning horizon for collection/transmission systems under the CITY's control.
2. The plan will set goals for evaluating percentages of the collection system each year with a minimum of 25 percent of the collection system evaluated over the five-year planning horizon. Recommended evaluations and assessments under the plan may include one or more investigative techniques such as camera inspections, smoke testing, data analytics, flow isolation, focused electrode leak location, direct observation, and sonar imaging, water chemistry, and solids analysis, or flow monitoring.
3. The plan will incorporate available information infiltration and inflow (I&I) studies, leakage surveys, and follow-up detailed sanitary sewer evaluation surveys.
4. The plan will include a map and inventory of the collection system developed in GIS along with electronic inventory of the collection system.
5. The plan will include an adaptive maintenance and repair plan that provides protocols for routine maintenance, cleaning activities, and emergency repairs.
6. Contact information and recordkeeping procedures.
7. The plan will describe measures taken to limit fats, oils, grease, wet wipes, sand, and grit into the collection system, and a root control program, any local sewer ordinances or programs to minimize I&I from private sanitary sewer laterals/individual service connections, and resiliency for sea-level rise and flood mitigation and stormwater control actions.

Task 3.5 Deliverables

1. Draft Collection System Action Plan. CONSULTANT estimates that CITY may require 10 business days after submittal of the Collection System Action Plan to review and provide comments for incorporation into the final document.
2. Final Collection System Action Plan

Task 3.6 – Power Outage Contingency Plan

In accordance with Rule 62-600.705(1), F.A.C. which became effective on June 28, 2023, an applicant for a domestic wastewater facility permit is required to submit a Power Outage Contingency Plan to FDEP with the application for a new permit, permit renewal, or substantial permit revision. The Power Outage Contingency Plan must describe the program and protocols to mitigate the impacts of power outages on the facility's collection/transmission system and pump stations. It will be incorporated as an appendix to the Collection System Action Plan.

Per the FDEP, the goal of a Power Outage Contingency Plan is to prevent sanitary sewer overflows (SSO) during a power loss to a pump station, a portion of a collection system, or to the entire collection system. Facilities should be able to respond quickly and effectively to power outages to prevent and stop SSOs that may endanger public health or the environment.

Utilizing information from the CITY, the following items shall be included by CONSULTANT in the Power Outage Contingency Plan:

1. Overview of the plan, its management, and general response procedures for power outages at individual pump stations as well as area-wide power outages

Mr. Charlie Lynch, PE
City of Tampa
January 9, 2025

5. Fuel resources
6. Response teams/personnel
7. Communications
8. Mutual aid agreements
9. Upgrades and improvements
10. Financial resources

Firm's maintenance of insurance coverage as required herein is a material element of the Agreement and the failure to maintain or renew coverage or provide evidence of same (defined to include without limitation Firm's affirmative duty to provide from time to time upon City's request certificates of insurance, complete and certified copies of Firm's insurance policies, forms, and endorsements, information on the amount of claims payments or reserves chargeable to the aggregate amount of coverage(s) whether during the term of the Agreement or after as may be requested by the City in response to an issue or potential claim arising out of or related to the Agreement to which Firm's insurance obligations hereunder may apply or possibly help mitigate) may be treated as a material breach of the Agreement. Should at any time Firm not maintain the insurance coverages required, City at its sole option (but without any obligation or waiver of its rights) may (i) terminate the Agreement or (ii) purchase such coverages as City deems necessary to protect the itself (charging Firm for same) and at City's option suspending Firm's performance until such coverage is in place. If Firm does not reimburse City for such costs within 10 days after demand, in addition to any other rights, City shall also have the right to offset such costs from amounts due Firm under any agreement with the City. All provisions intended to survive or to be performed subsequent to the expiration or termination of the Agreement shall survive, including without limitation Firm's obligation to maintain or renew coverage, provide evidence of coverage and certified copies of policies, etc. upon City's request and/or in response to a potential claim, litigation, etc.

The City reserves the right from time to time to modify or waive any or all of these insurance requirements (or to reject policies) based on the specific nature of goods/services to be provided, nature of the risk, prior experience, insurer, coverage, financial condition, failure to operate legally, or other special circumstances. If Firm maintains broader coverage and/or higher limits than the minimums shown herein, the City requires and shall be entitled to such broader coverage and/or higher limits maintained by Firm. Any available insurance proceeds in excess of the specified minimum limits of insurance and coverage shall be available to the City. No representation is made that the minimum insurance requirements are sufficient to cover Firm's interests, liabilities, or obligations. Required insurance shall not limit Firm's liability.

Firm acknowledges and agrees Firm and not the City is the party in the best position to determine applicability (e.g. "IF APPLICABLE"), confirm, and/or verify its insurance coverage. Acceptance by the City, or by any of its employees, representatives, agents, etc. of certificates or other documentation of insurance or policies pursuant to the terms of this document and the Agreement evidencing insurance coverages and limits does not constitute approval or agreement that the insurance requirements have been met or that coverages or policies are in compliance. Furthermore, receipt, acceptance, and/or approval of certificates or other documentation of insurance or policies or copies of policies by the City, or by any of its employees, representatives, agents, etc., which indicate less coverage than required does not constitute a waiver of Firm's obligation to fulfill these insurance requirements.
